New School Building!

Owing to the fact of the School Board's having bought the old Perkhouse (our warehouse) for the site for the new High School Building, we are obliged to move all our vehicles within the next 60 days; and we hope the high price of land would be better to sell them than to move, a storeroom in Maysville is pretty scarce just now, and besides it is very expensive to move four or five carloads of crated vehicles.

Therefore!

We are beginning today the most phenomenal sale of vehicles ever held in Maysville, and a word to the wise should be sufficient. "If you are contemplating the purchase of a rig of any kind, now is your opportunity."

In noting happenings and chronicling events which go to make up the local kaleidoscope, nothing is more important than the C. and O. yard switching service, which is the artery of trade between a shipper and his customers. Since Mr. William Spremberg became Yardmaster of the local C. and O. interests, his ability and judgment have brought a system and order which does the work in half the time and gives that service to local dealers never rendered before. His able lieutenants, John McCabe and Jesse Helmer, are large parts of this perfect machinery and are a corps of splendid fellows.

For President in 1908,
WILLIAM H. TAFT, OF OHIO.

For Vice-President.
CHARLES E. HUGHES, OF NEW YORK.

For Governor of Kentucky,
AUGUSTUS E. WILLSON OF LOUISVILLE.

DURING the recent interview at the White House between President ROOSEVELT and J. PIERPONT MORGAN, it is reported that Mr.

ROOSEVELT "talked right out in meeting" to Mr. MORGAN about the railway situation and plainly informed him that the law against all violations

of the law by the railroad owners will be strictly enforced.

The President paid his respects to Mr. HARRIMAN in the presence of Mr. MORGAN as follows—

"HARRIMAN," declared Mr. ROOSEVELT, grimly. "He has no conception of what is lawful and what is unlawful. He has a lawless nature. He has no moral sense. He is a menace to this country. He is a disgrace to the institution of railways. He is a stigma upon those railway men and bankers who tolerate and condone and help him."

"HARRIMAN doesn't know how to come within the law; he has got to go."

"The Government proposes to follow him up and expose his dealings and practices against public morality and business decency until it will be impossible for him to stand up longer against the storm of public opinion that will overwhelm him."

Mr. MORGAN was completely knocked off his pins and made many promises to the President for the railways.

The President was informed that the bank-

ers and railroad interests that had undertaken to wrest control of HARRIMAN's railroads would be compelled to smash the market for Harriman securities.

THE new fast Pennsylvania train between New York and Chicago takes on no passengers between Pittsburgh and Chicago. All of which is lucky for the passengers who don't get aboard between the two points mentioned.

It is said that Mrs. NICHOLAS LONGWORTH is soon to astonish Washington society by appearing in a complete suit of "Alice Blue," including shoes, hat and gloves. Like her distinguished father, she marks out a path for herself.

THE Japs are pretty good customers of Uncle Sam, as the following dispatch from Pittsburgh will show—

"The Japanese Government has officially closed an order with the Steel Corporation for 100,000 tons of steel rail, with the American Locomotive Company for 183 engines and with other concerns for 40,000 freight and gondola cars. The total amount of the contract is \$15,000,000."

THE Thaw case has furnished some remarkable characters, of whom the most hideous is certainly Mrs. HOLMAN, the infamous mother of EVELYN NESBIT THAW, who furnished the inside information which guided JEROME when he made the daughter walk over red-hot plowshares to save her husband from the electric chair. History does not tell of a more unnatural mother than this woman, who sold her daughter to a debaucher and now prompts a District Attorney what to ask in order to entrap the daughter in the hour of her supreme trial.—Lexington Leader.

AS TO A DIVIDEND.

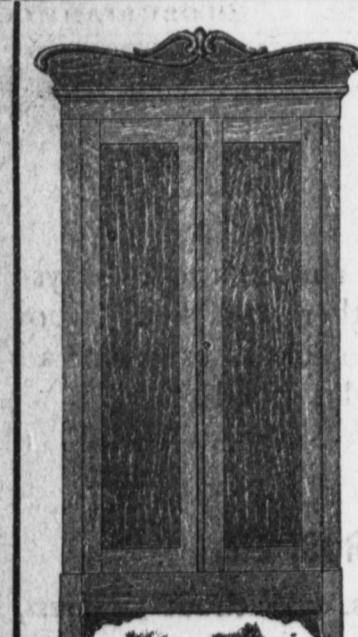

"Papa, what is a dividend?"
"It is what is left over, my son, after the President, the Board of Directors, the legal representatives and the politicians have gotten through?"

STRUCK OIL

Mason County An Eldorado of the Earth's Richest Product

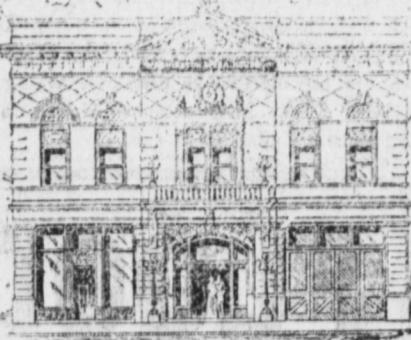

Mr. Stephen Harrison of the county was in the city yesterday with a wagon load of drilling tools. He says that in boring a well he struck gas and oil in paying quantities on his farm in the Lewisburg Precinct.

Mr. Harrison is very much elated over his rich possessions and is confident that his find will develop into a gold mine for him. Should it pan out in proportion to his glowing description, he has certainly struck it rich.

Oil men will be here, when they hear of it, as thick as bees around a molasses barrel.

THE LEDGER hopes that the gentleman's fondest dreams may be realized, and that Mason county may develop into a real oil center.

Weak Lungs

NEED VINOL

its cod liver oil elements heal and strengthen the lungs

Many people inherit weak lungs which are likely to be attacked by consumption. So also are lungs weakened by disease or by a stubborn hacking cough.

No matter what the cause Vinol strengthens weak lungs and gives one the power to throw off wasting diseases.

The reason that Vinol has such power to heal and strengthen is because it contains in a highly concentrated form all of the curative, medicinal and strength-creating elements of cod liver oil, actually taken from fresh cod-livers, with the useless, nauseating oil eliminated and tonic iron added.

So sure are we of what Vinol will do that we ask every person in Maysville suffering from weak lungs, stubborn hacking coughs or any wasting disease to try Vinol on our offer to return money if it fails.

J. C. PECOR, Druggist.

NOTE—While we are sole agents for Vinol in Maysville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

Yesterday afternoon Squire Will Rice and Walker Harney were returning to the Fairgrounds and Training Tracks in East Forest Avenue by way of Fleming pike and Lexington street. The colt attached to the driving wagon was a spirited animal, and in passing the Burtonville Bus in Lexington street opposite the old ball park it shied and dumped the whole tea party into the muddy backwater. The wagon was wrecked and considerable difficulty was experienced in getting the horse out of the mud and water.

SENSATIONAL

Experience of a Thirteen-Year-Old Girl—Hearth Caved In

A little thirteen-year-old girl, named Jefferson, had a thrilling experience yesterday morning while visiting at the home of Mrs. Mollie Tolliver, in West Second street, that she will not soon forget.

The home of the Tollivers is one door West of Oliver Greenlee's place, an ancient and time-honored dwelling. At the time of the accident the girl was standing directly over the hearth, Mrs. Tolliver and children were sitting in a semi-circle close up to the fireplace; like a clap of thunder from a clear sky the hearth gave way, and with a cry of despair the child disappeared, falling into a cellar half full of water.

The frightened woman gave the alarm and soon willing hands came to the rescue. When found the Jefferson girl was in water nearly up to her arm pits, scarcely able to stand from fright and injury. She was taken up through the aperture in the floor from the dark cavern and sent home.

The chair on which Mrs. Tolliver was sitting tilted and nearly precipitated its occupant into the opening. The dinner cooking on the fire place tumbled into the hole, and with the falling bricks and other debris falling in it's a wonder the child was not killed.

Had the accident occurred while the water was at its height the little victim would have certainly drowned before assistance arrived.

The dreadful havoc of life and property in the United States for the twelve months of 1906 is shown by the record that 7,000 lives were lost and more than \$500,000,000 worth of property was destroyed by fire during that period. In no other country in the world is the fire loss, in a bulk or pro rata, anywhere near our own. Last year, owing to the devastating fire that followed the earthquake in San Francisco, this loss was in great excess of the average, but the average for some years past has been \$200,000,000 a year.

ALL matter for publication must be handed in before 9 o'clock a.m.

SEWERAGE

Contemplated Improvements at the Government Building

Uncle Sam is not one of your impecunious landlords; rather he is of the kind that believes the best is none too good for his tenants and public servants, hence his houses and lands are kept in a condition somewhat better than those of his neighbor.

Yesterday THE LEDGER spoke of the lights to be installed at the Government Building, and now follows a sanitary improvement for the betterment of its inmates.

Postmaster Mathews has received plans for a sewer system for the entire grounds and building.

As now contemplated the sewer line will connect with the deep well on the premises and run North to the river, where the waste will empty into the flowing stream.

It is a question whether it were not better to change the course of the sewer, and instead of striking the river, as now outlined, tap the Limestone street sewer. This could be done by laying the pipe line to Second street extension and then change the course West on Second and connect with the city sewer in Limestone street. By so doing a firm bed for the sewer pipe would be assured, which is not the case in running the pipe to the river as now intended. Think the matter over.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

BRITON A POOR IMMIGRANT.

As a Settler in Canada He Has Done Little for Country.

Canada naturally has strong English sentiments, but the actual leaders in affairs in the Canadian Northwest admit that the English immigrant neither made a past nor assured a future for their new empire. First came the typical English "remittance man," who lived on money sent from home and subsisted chiefly on whisky. He was a cumberer of the earth and spelled no progress whatever.

Then came the English colonist from the cities, poor folk for the most part and eager to better themselves; willing to work, but in fitness generations behind the men who fought their course across the continent by way of the Appalachians and the Missouri and the Rockies. Later there arrived numbers of the agricultural classes of England, peaceful, hard-working and frugal, admirable settlers, albeit somewhat ignorant of the conditions of life in a new country.

All these were welcomed in Canada, but, although the English immigration in numbers equals that of many other nations combined, it does not equal the American immigration alone in striking power, in foot-pound terms of potential civilization.—Outing.

HOW HE MIGHT QUIET BABY.

Simple But Energetic Method Advised by Mother.

"Before I got this job I had no idea so many funny things happened on street cars," said a new conductor. "Every day I see and hear things that are amusing. For instance, a woman with a baby about two years old boarded my car and rode downtown. When we reached Fifteenth and California she rose to get off. The baby was tucked snugly in the corner of the seat. The woman hesitated in the aisle. 'Say,' she said to me, 'I'd like to ask a favor of you.'

"What is it? I asked."

"I've got some shopping to do," she said. "Would you please take baby around a trip with you? I don't want him with me. I'll be back when you return to this corner and take him."

"Madam, I replied, I can't take care of your baby. Suppose he should get to crying, as he undoubtedly would?"

"Well, goodness me!" she said, "you could slap him, couldn't you?"

He Knew It.
"It is always the unexpected that happens," said the man who likes quotations.

"Nobody knows it better than I," answered the gloomy-looking man. "I'm a professional weather prophet."

ALL WOMEN SUFFER

from the same physical disturbances, and the nature of their duties, in many cases, quickly drift them into the horrors of all kinds of female complaints, organic troubles, ulceration, falling and displacements, or perhaps irregularity or suppression causing backache, nervousness, irritability, and sleeplessness.

Women everywhere should remember that the medicine that holds the record for the largest number of actual cures of female ills is

Lydia E. Pinkham's Vegetable Compound

made from simple native roots and herbs. For more than thirty years it has been helping women to be strong, regulating the functions perfectly and overcoming pain. It has also proved itself invaluable in preparing for child birth and the Change of Life.

Mrs. A. M. Hagermann, of Bay Shore, L. I., writes:—Dear Mrs. Pinkham:—I suffered from a displacement, excessive and painful functions so that I had to lie down or sit still most of the time. Lydia E. Pinkham's Vegetable Compound has made me a well woman so that I am able to attend to my duties. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound and see what relief it will give them."

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female illness are invited to write Mrs. Pinkham, at Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Therefore she is especially well qualified to guide sick women back to health.

RIVER NEWS.

The gage marks 52.8 and falling.

More coal coming.

The loss caused by the sinking of the tow-boat Cruiser in the upper Ohio amounted to about \$40,000.

At Enterprise, a few miles below Rockport, Ind., the Ohio river cut the town in two, and communication was practically shut off from the outside world.

It is to be hoped that the present rise or flood will be the last for some time to come. Steamboatmen and people living in the lowlands along the river are tired of being annoyed by these big floods.

Captain J. M. Hammitt, the Pittsburgh boat builder, has purchased from the Inland Marine Construction Company its plant at Marietta, O. There are six and one-half acres of property, with planing mill, saw mill and machinery for manufacturing everything for a steamboat.

If Captain Jim Grant, ferryman at Manhattan Park, Cincinnati, keeps his threat to cut loose the Bonanza and Indiana, which have been tied there since March 1st, a serious loss will result.

Grant says that 684 feet of the river front adjoining the park was given him by the late

Danderine

Grew This Hair

AND WE CAN

PROVE IT.

Little Frances Marie Knowlton is the daughter of Dr. E. W. Knowlton, the discoverer of this great hair-growing remedy, and her beautiful hair was grown wholly by the use of this great tonic.

This little girl had no more hair than the average child before using Danderine, while now she has the longest and most beautiful head of golden hair ever possessed by a child of her age in the world.

Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy ever discovered. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 25c. bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made.

UNIQUE SUIT

Test Case Filed in the Montgomery Circuit Court

Attorneys Earl W. Senff and John A. Judy of Mt. Sterling have filed a unique suit in the Montgomery Circuit Court against the city of Mt. Sterling. The suit is a test case and is filed in the name of Almanza Byrd, who has been fined in the Police Court of Mt. Sterling thirty times in the past five years.

The various cities in the state have for years been adding \$3 costs to every fine entered, allowing \$2 attorneys fees and \$1 for the arresting officer. These fines have been administered under an ordinance passed by the various City Councils.

Under a recent decision of the Court of Appeals the ordinance was held illegal and only 50 cents could be allowed for the arresting officer, hence every man fined in the past five years has been taxed \$2.50 illegally, and the suit is filed for Byrd to recover.

If the contention of Messrs. Senff and Judy is upheld they will at once institute suits to the number of 500 to recover claims, which will mean over \$2,000 which the city will have to surrender.

The outcome of the test case will be watched with intense interest by attorneys throughout the state, as it is the first one of its kind ever filed in Kentucky.

Two Greenup county boys, Frank and Willie Rhoden, aged 12 and 15 years, respectively, went to Lexington Tuesday expecting to see their father, who had been an inmate of the Eastern Kentucky Lunatic Asylum, having been sent from Euclid, Greenup county, in January, 1905. They found at the Asylum that their father had escaped from the institution nearly two years ago, and that all trace of him had been lost by the officials.
